

 Learning A-Z™

Practical is powerful.

Our versatile, time-saving literacy solutions keep teachers at the center of their Science of Reading-aligned classrooms.

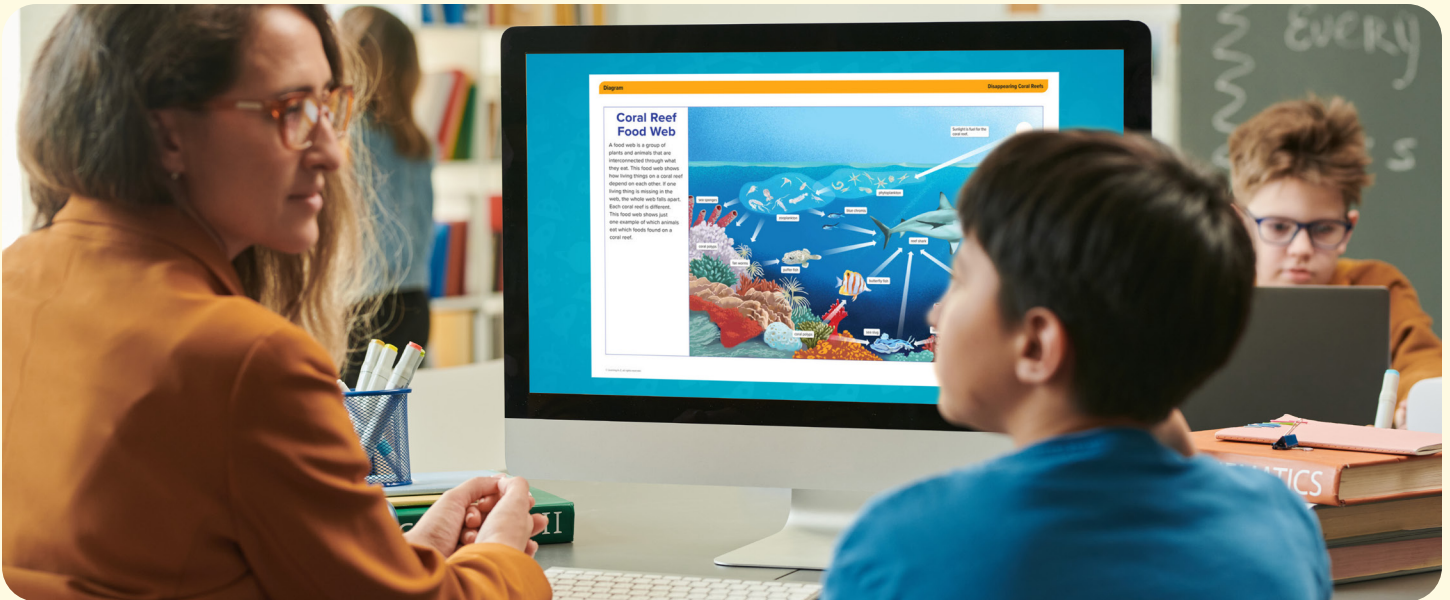

“Teachers are now making connections with Foundations A-Z, Raz-Plus, and Writing A-Z. Everything is coming together, and they’re feeling more confident in the way they’re teaching.”

Jamie Wolfe

Assessment and Curriculum
Coordinator, Wilder School District, ID

Now enhanced with an equal emphasis on foundational skills and reading comprehension

The all-in-one K-5 supplemental literacy solution.

Raz-Plus is a practical supplemental literacy solution that provides teachers with everything they need in one place to support their literacy instruction, including:

- Explicit foundational skills instruction with a research-aligned scope and sequence
- Flexible comprehension resources and an extensive, age-appropriate library of high-quality student texts
- Time-saving resources, including decodable books, phonics skill packs, and flexible tools such as graphic organizers to strengthen comprehension, vocabulary, and metacognition
- Streamlined in-product navigation with content buckets aligned with the Science of Reading
- Student-facing, highly engaging personalized learning experience with incentivized, independent practice opportunities
- Versatile literacy resources for whole-group, small group, classroom centers, and independent practice

“As a teacher, I am looking for a practical tool that I can use right now. [With Raz-Plus], I can just take what you have and give it to my students.”

Jacquelyn S.
Special Education Teacher,
Weare Middle School, NH

Support equitable instruction in multilingual classrooms.

Nurture language learning with an extensive variety of authentic Spanish texts and other transadaptive resources written by Spanish-language authors.

Enable educators to deliver engaging lessons that enhance reading, writing, listening, and speaking abilities with students at different stages of English language development.

Foundations A-Z™
