

MagicSchool is the leading AI platform in education, offering 80+ tools for teachers and 50+ tools for students. MagicSchool helps reduce teacher burnout while promoting responsible and ethical AI use among students. Additionally, with customizable tools, MagicSchool aligns seamlessly with your school or district's priorities, curriculum, and goals.

Here are some key features of MagicSchool Enterprise to highlight...

- All educators will gain full access to MagicSchool Plus (unlimited threads, export capabilities, custom actions, unlimited history)
- All students can be assigned tools in MagicStudent by their teachers
- District data dashboard for tracking teacher and student usage
- Single Sign-On for educators and students
- Platform customizations to fit your district's unique needs
- Custom data privacy agreement
- Dedicated Customer Success Manager
- Professional Development

MagicSchool is FERPA, COPPA, GDPR, Ed Law 2d compliant, and received a best-in-class safety and privacy rating from CommonSense. [Read more about our safety and privacy ratings here.](#)
