

Yeti Academy – Bring STEM Learning to Life in Your Classroom

Yeti Academy is an all-one, standards-aligned STEM education platform. It offers K-12 Keyboarding, Coding, Google Workspace Applications, Digital Literacy, Digital Citizenship, Computational Thinking, Math, Science curriculums. Complete with sub-ready teacher resources, including: lesson plans, notes, assessments, and so much more, teachers feel confident getting started and working through the learning process with their students.

Yeti Academy is a powerful, all-in-one K-12 STEM platform designed to transform how students learn technology, digital literacy, and real-world problem-solving. Courses are plug and play, student guided, or teacher led. Instead of isolated lessons, Yeti Academy delivers immersive, project-based experiences that connect classroom learning to real-life skills—keeping students engaged, motivated, and future-ready.

Why Teachers Choose Yeti Academy

Yeti Academy was built with teachers in mind. Complete with sub-ready teacher resources, including: lesson plans, notes, assessments, teachers or substitutes feel ready to dive in and teach. No need worrying about planning; we've done it for you!

- Plug-and-play courses with lesson plans, activities, and assessments included
- Project-based learning that connects to real-world scenarios

- Teacher Led Courses like “Life Science elective”
- Gamified experiences that boost student engagement and participation
- Flexible implementation for in-person, remote, or hybrid classrooms
- Robust reporting tools to track student progress at every level

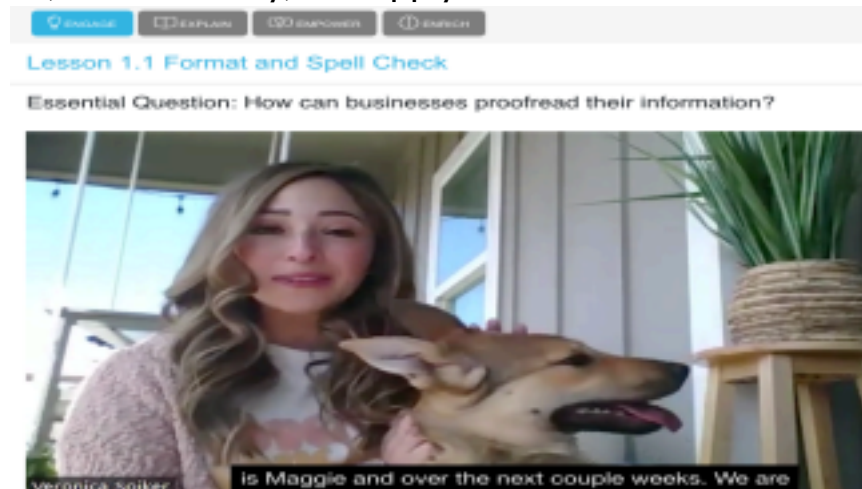

Most importantly, Yeti Academy helps teachers deliver high-quality STEM education without increasing workload and multiple platforms to navigate.

Engaging, Real-World Learning

Yeti Academy stands out by making learning meaningful. Students don't just complete lessons—they:

- Design businesses like a Pet Spa, Snowboard Shop or Theme Park using Google tools
- Solve real-world problems through hands-on STEM projects
- Collaborate, think critically, and apply skills in authentic contexts

This project-based approach helps students understand why they

are learning—not just what.

Comprehensive Curriculum Offerings

Yeti Academy offers a wide range of integrated STEM curriculums, all aligned to major standards like ISTE, Common Core, and CSTA. ([Yeti Academy](#))

1. Keyboarding (Typing)

- Developmentally appropriate K–12 typing curriculum. K-2 students may learn using a phonics-based or traditional QWERTY curriculum approach
- Builds speed, accuracy, along with digital and reading fluency
- Tracks progress and adapts to student ability

2. Coding Curriculum (Yeti Code)

- Gamified coding environment with single-player and multiplayer modes
- Teaches programming concepts from beginner to advanced levels
- Helps students think like developers and build real coding skills

Students progress from guided learning to writing their own code, making coding both fun and challenging.

3. Digital Literacy & Google Workspace

- Teaches practical technology skills using tools like Docs, Sheets, and Slides
- Includes project-based modules like building businesses or presentations
- Prepares students for real-world academic and workplace tasks

ENGAGE EXPLAIN EMPower ENRICH EVALUATE AB 🔊 A 🔍

1.1 Brainstorming and Outlining

Backcountry Yeti Snowboard Shop Challenge:

- Write one full page of notes; include ideas about clothing, snowboarding gear, food and drinks for the Blizzard Bakery, and color schemes.
- Organize your notes using a numbered list or bullet points.
- Describe key points and plans for the Snowboard Shop.
- Make sure that you read through all of the instructions before you begin your project.

4. Digital Citizenship

- Teaches safe, responsible, and ethical technology use
- Integrated across multiple courses for real-world relevance
- Helps students become thoughtful and responsible digital users

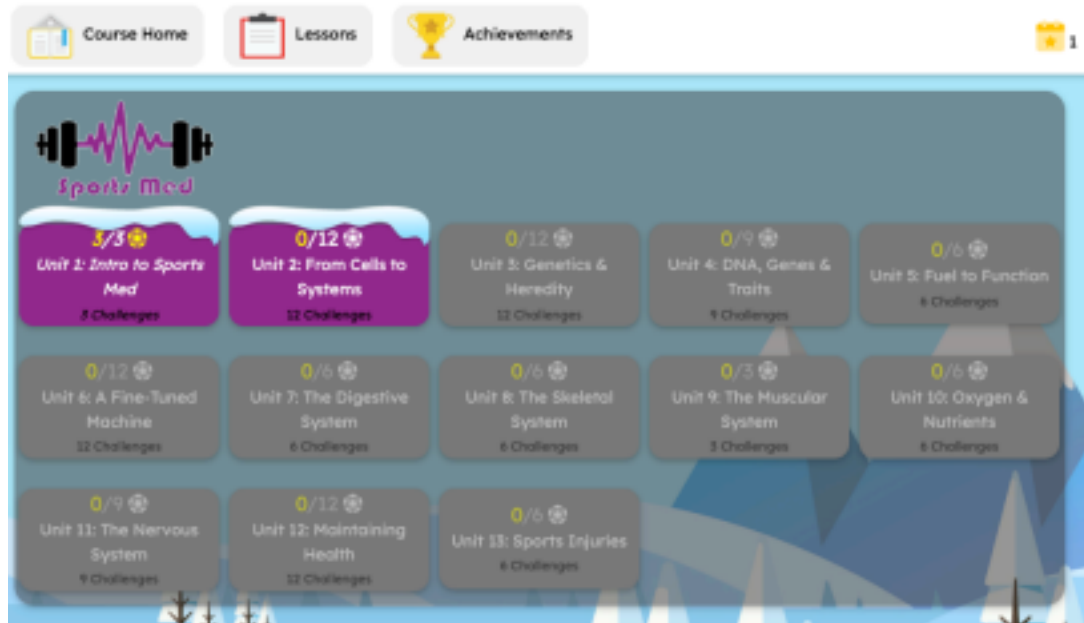

5. Computational Thinking

- Develops problem-solving and logical reasoning skills
- Includes interactive modules like pattern recognition and real-world simulations
- Builds foundational skills for coding and STEM success

6. Science (Life Science & STEM Modules)

- Includes engaging, themed courses like Sports Medicine
- Uses hands-on, real-world applications to teach scientific concepts
- Encourages inquiry, exploration, and critical thinking

7. Project-Based STEM Courses

- Student-guided experiences like Theme Park, Pet Spa, and more •
- Combines multiple disciplines (technology, business, creativity) •
- Reinforces the “4 Cs”: communication, collaboration, creativity, and critical thinking

Designed for Every Student

Yeti Academy uses differentiated instruction and adaptive pathways to ensure all students succeed:

- Supports beginners through advanced learners
- Encourages self-paced progression
- Keeps students engaged through gamification and interactive content

A Complete STEM LEARNING Ecosystem

Yeti Academy isn't just another curriculum—it's a complete STEM learning ecosystem that helps teachers:

- Engage students with meaningful, hands-on learning
- Teach essential digital and career-ready skills
- Save time with ready-to-use, standards-aligned lessons
- Prepare students for success in a technology-driven world

With Yeti Academy, classrooms become dynamic environments where students create, explore, and thrive—building the skills they need not just for school, but for life.

How SDA Schools Purchase or Renew Yeti Academy (2026–27)

Welcome! If you are a Seventh-day Adventist (SDA) school, you have access to exclusive discounted pricing for Yeti Academy. Here's what you need to know before you get started:

Step 1: Choose Your Pricing

- \$100 for up to 30 students (minimum purchase)

- \$3.00 per students when there are 30 or more students. Regular price is \$11.05 per student, so this is a significant discount.

☐☐ Tip: Buy all the licenses you expect to need for the full year upfront to lock in this special rate. Discount pricing is only available once per year.

☐☐ Step 2: Complete the Purchase Form

- Click this [Yeti Academy purchase link](#). Only [THIS link](#) will work. If you go to our general Yeti Academy website, you will have to pay the full price.
- Renewing schools, use your domain and main administrator login details should you want to keep your current account with teachers and students.
- New schools, please complete the form with your school's details. The details you use will be your main administrator's log in credentials and the website where your teachers and students will log in. Payment receipts will be sent to this email address, too.

⚠ This link can only be used once per school year. If it is used twice, it will erase your first order so you will start again with 0 students. Be sure you're ready before ordering.

☐☐ Step 3: Make Payment – Once you complete the form:

- You'll be redirected to PayPal
- Choose:
 - Pay with PayPal OR
 - Pay with debit/credit card as a guest (no PayPal account needed)

Once payment is completed:

- Your account is automatically created or renewed
- Your access runs through September 30, 2027
- A receipt is immediately emailed to the email address you used

To be clear, you'll see this interface after you've completed the form. If you opt not to pay with a PayPal account, select the Pay with Debit or Credit Card option.

Pay with PayPal

With a PayPal account, you're eligible for Purchase Protection and Rewards.

or

Be sure to complete the checkout process when you purchase. Yeti Academy uses PayPal to complete these transactions. You do NOT need to have a PayPal account. You may opt to use a debit or credit card. To do so, you will need to Checkout as a Guest, and PayPal completes the transaction just like any banking device. Once you make the payment, your new Yeti Academy account is created and ends September 30, 2027. A receipt goes right away to the email address you used to make the purchase. Check your email's inbox and spam filter. Search for PayPal or Yeti Academy if you don't see the receipt immediately.

⚠ Important Terms to Know

- One-Time Discount Pricing
 - Additional licenses later in the year = full price (\$11.05/student)
- No Refunds - Processing fees are deducted if applicable
- One-Time Link Use
 - Using the link again will overwrite your existing licenses

☐☐ Need a Quote Instead?

If you prefer to pay through another system:

- Email us at support@yetiacademy.com to request a quote at \$11.05 per student (minimum 10 students)
-

☐☐ Step 4: Prepare for the School Year

Before students begin:

- Returning schools, reset your account for the new school year a few days before your students come. Write to us should you need help with this.
- Weekly walkthrough webinars that will take place in August.

☐☐ Need Help?

Email: support@yetiacademy.com

Phone: 425-880-2500 (ext. 2 → 2)

Or use the in-app chat

Summary

Fill out the form → Pay → Account is ready instantly

Discount pricing is only available once per year

Access lasts through September 30, 2027
